SIMPLEX CASTINGS LIMITED

RECRUITMENT | JOB DESCRIPTION

ESTIMATION ENGINEER – FABRICATION

Fabrication Cost Estimation & Technical Evaluation

Company	Simplex Castings Limited (SCL)
Work Location	Bhilai, Chhattisgarh

POSITION OVERVIEW

Simplex Castings Limited invites applications for an Estimation Engineer to prepare technical and commercial cost estimates for fabrication jobs, based on customer enquiries, engineering drawings, specifications, and project requirements.

KEY RESPONSIBILITIES

- Study and interpret fabrication drawings, technical specifications, BOQs, and customer enquiry documents.
- Calculate material requirements, component weights, cutting allowances, and fabrication quantities from engineering drawings.
- Estimate material, cutting, welding, machining, assembly, surface preparation, painting, and other applicable process costs.
- Prepare detailed cost sheets, budgetary offers, and estimates for fabrication jobs.
- Coordinate with design, production, purchase, stores, and quality teams to validate technical inputs, material grades, process routes, and costing assumptions.
- Obtain and compare material, bought-out item, subcontracting, and process rates as required for estimation.
- Support preparation of quotations and tender submissions within required timelines.
- Maintain estimation records, costing assumptions, and revisions for future reference.

QUALIFICATIONS & SKILLS

- Diploma or B.E./B.Tech in Mechanical Engineering or a related discipline is preferred.
- Relevant experience in fabrication estimation, costing, or quotation preparation will be preferred.
- Ability to read fabrication and assembly drawings and understand welding symbols, material grades, and tolerances.
- Working knowledge of MS Excel and preparation of structured cost sheets.
- Strong numerical, analytical, coordination, and documentation skills.
